Yes, for Catalyst they are. And Sandstone, but they ended consultation for Sandstone but we're responding to their comments anyway. Sandstone is also in concurrence for Cathy's signature.

For Roulette, we responded to their comments in August.

Hi Brian,

We have two active consultations with Seneca right now – Roulette Oil & Gas and Catalyst Energy. The final permit for Roulette has been sent to Cathy Libertz for signature so that one will end whenever the final permit is signed. She's also signing a letter to Seneca Nation informing them of our final permit decision effectively ending our consultation for Roulette.
